Initial Fitting: Visit your nearest formalwear professional at least 30 days prior to your event. Most formalwear dealers will provide complimentary measurements. A proper fitting is based on the quality of the measurements taken, so please do not attempt to do the sizing yourself/substitute sizes of items you own/substitute costuming or any other method of measurements for a professional fitting. Bring this form when you get sized, and ask the specialist to complete the information in the boxes below. Visit **TuxedoFit.com** and search by zip code for suggested fitting locations.

FINAL FITTING: Please try on your outfit at least 24 hours prior to the event. This is considered the final fitting, and adjustments or re-orders may be necessary. Additional trips to the store may be necessary to get proper fit. Please allow time for try on, and for us to supply replacement items if necessary. We are not responsible for measurements taken elsewhere, but will make every effort to correct any issues whenever possible. Special order items, or special order sizes, from without our inventory may require additional time for delivery, additional shipping fees, or have limited availability.
